Bengaluru

Summary

I'm a high school senior student at Delhi Public School Bangalore South currently working as a Software Developer at Foretag Inc. I contribute to back-end development at Foretag using Crystal, GraphQL, Javascript, etc. I want to integrate technology with our health care system with the help of drones. I love computers, physics, electronics and I want to be an innovator to make this world a better place.

Experience

Foretag
Software Developer
May 2020 - Present (1 year 4 months)
